Industrial Automation

Android™ Industrial+

Android™ Industrial+ is an operating system optimized by ACD Elektronik for industrial use and offering a particularly high level of security. The entire source code is located exclusively on ACD's servers in Germany. This ensures that no data is passed on to third-parties. In addition, all services that could cause unintended data transmission have been removed. Android™ Industrial+ combines long-term availability with high stability and security.

SAFETY

- No data emigration and data security through independence from third-party services
- Extended security and update service throughout the entire product lifecycle and beyond for security patches
- Ensuring security and support even for Android™ versions that are no longer supported
- Fast integration and deployment of security patches directly by ACD Elektronik

LONG-TERM AVAILABILITY

- Industrial-grade hardware and software with a service life of up to ten years
- Upgrade to higher versions of Android™

MADE IN GERMANY

- Source Code is located at ACD in Germany

ACD ANDROID™ APPS

- Other ACD apps, such as KioskMode, ScanConfig, KioskBrowser, EasyToConfig, etc.

CONFIGURATION AND MANAGEMENT

- Fast and easy configuration of Android™ devices
- Standard interfaces for use with common mobile device management solutions (ACD MDM, SOTI®)
- SOTI® certification for the M2Smart®SE

SERVICE AND SUPPORT

- Service and support in Germany
- Fast response (for customer specific modifications or enquiries)
- Direct contact with the ACD development team if necessary

WE LOOK FORWARD TO YOUR INQUIRY!
