

UPS Battery module USVBP01

The battery module is intended for connection to the UPS controller USV2410.

The battery module contains a maintenance-free AGM battery. Compared to other batteries, this is characterized by higher performance, higher cycle stability such as a longer service life and thus reliably provides the required energy during the downtime of the system voltage.

Technical Data

USVBP01

Conformity

EMC Directive	2014/30/EU
LVD Directive	2014/35/EU

Output data

Output voltage battery	2 V DC
Output current battery capacity	20 A 2,9 Ah

Enclosure IP 20

Pollution degree 2
protection against conductive dirt contamination through mounting in control cabinet with a degree of protection of IP54

Mission time

maximum 5 years
(depending on the ambient temperature)

Mounting

in the control cabinet;
on DIN-rail NS 35 OR screw fastener on electrically conductive and earthing mounting plate

Dimensions Battery module USVBP01

Device	Weight [kg]	Height [mm]	Width [mm]	Depth [mm]
USVBP01	1,5	128	63	103
