PORTABLE DEVICES

Inside logistics, retail and industry ACD offers robust systems and solutions that, thanks to reliable and flawless work, make the daily working routine easier. Our products impress thanks to the simple and intuitive entry as well as increased durability, even in the most adverse of conditions.

TABLE OF CONTENTS

01 / MOBILE HANDHELD COMPUTERS

Robust all-rounders for fast and efficient work

Mobile Handheld Computer for logistics, retail and industry applications are developed for the daily work routine in tough environments. Freely configurable function keys, an integrated Imager (shortrange, midrange, advanced rang and longrange), impact-proof housing, the proven quick-entry keyboard and a premium TFT color-display with LED back-light are all integral components of these products. Optional accessories that are also available include grips, keyboard variants, RFID (HF, LF, UHF), BT-compatible close-range network.

M2Smart®SE

TECHNICAL DATA

Housing:	ABS/PC
Protection:	IP54/IP65
Operating temperature:	-20 °C to 50 °C/-4 °F to 122 °F*
Storage temperature:	-20 °C to 60 °C/-4 °F to 140 °F
Dimensions:	174 x 82 x 28 mm (L x W x D)
Weight:	Approx. 390 g
Power supply:	Quick-change rechargeable battery, li-ion with 22.8 Wh (6,000 mAh/3.8 V), docking station incl. battery charger for spare battery
Display:	5" color TFT Display with LED backlight, 1280 x 720 pixels, 400 cd/m², 3 Status LED

Touchscreen:	Capacitive, surface hardness 7H
Keyboard:	Side On-/Off key
Barcode scanner (optional):	Integrated in housing (side scanner keys) 2D shortrange Imager SE4770 (IP65) or 2D midrange Imager SE4750MR (IP54)
Camera:	5 MP auto-focus camera with lighting
Processor:	NXP®** i.MX8M Mini, 4x Cortex A53 (4x 1.8 GHz) and 1x Cortex M4 (1x 400 MHz)
Memory:	ACD Standard: 16 GB Flash, 2 GB RAM Optional: 32 GB Flash, 4 GB RAM
Operating system:	Android™*** Industrial+

TECHNICAL DATA

Options:	• WLAN according to IEEE 802.11a/b/g/n/ac/d/h/e/i/r/k/w/v (2.4 GHz/5 GHz) incl. BT-compatible close-range network 5.0 WLAN Security[1]: WEP, WPA, IEEE802.11i (Personal and Enterprise), WPA2, WPA2-PSK 802.1x: authentification
	• HF-RFID/NFC
	• SOTI® MobiControl

ACD All-in-One:	• ACD All-in-One Support & Maintenance for operating system and firmware.
	• Includes firmware updates, upgrades to higher OS versions, security patches and unlimited phone support

Ergonomic backhand scanners for logistics

Consistently developed on the basis of requirements from logistics and industry, the HasciSE backhand scanners offers - as one of the smallest and lightest - the optimal solution for small parts picking, as well as work on the forklift or an industrial truck, where work is usually „hands-free". The HasciSE can also be used on large production lines in industry and, due to the wide range of operating temperatures, production companies in the food sector can also use the HasciSE without hesitation.

02 / Backhand Scanner
HasciSE SR

TECHNICAL DATA

Housing: ABS

Protection: IP54

Operating temperature: -20 °C to 50 °C/-4 °F to 122 °F

Charging temperature: 10 °C to 40 °C/50 °F to 104 °F

Storage temperature: -20 °C to 20 °C/-4 °F to 68 °F

Dimensions: 58 x 45 x 16 mm (L x W x D)

Weight: 52 g

Power supply: Battery, li-po with 2.405 Wh (650 mAh/3.7 V), docking station

Display: Status LED

Keyboard: Two buttons fot switching on and off and for scanning
External key can be contacted via pushbuttons

Barcode scanner: 2D shortrange Imager SE4750SR integrated in housing; opportunity to scan DotCodes as option

Interfaces: BT-compatible close-range network 4.0

TECHNICAL DATA

Special features:	• Scan trigger via scanner key
	• Scan feedback via vibration, sound and visually
	• Pairing via BT-compatible close-range network
	• Easy pairing via ACD EasyToConnect 2.0 or ACD HasciDataService

Compatibility with all BT-enabled devices:	• BT 4.0 and above

Compatibility with ACD devices:	• Mobile Handheld Computer M2Smart®SE
	• Mobile Handheld Computer M270SE
	• Vehicle Mount Terminal MFT1xSE series

ACD All-in-One:	• ACD All-in-One Support & Maintenance for operating system and firmware.
	• Includes firmware updates, security patches and unlimited phone support

Subject to technical modifications.

Robust all-rounders on order picking vehicles

To optimize demanding logistics applications, the vehicle mount and forklift terminals of the MFT1xSE series with large colour display (three different display sizes), touch screen (capacitive or resistive) and individually configurable function keys offer more space for displaying complex applications and excellent readability, even in sunlight. The sturdy aluminum housing offers sufficient impact resistance, dust protection, water protection and increased durability even in harsh industrial environments down to -30 °C/-22 °F.

03 / Vehicle Mount Terminals
MFT10SE

TECHNICAL DATA

Housing:	Aluminium, powder-coated
Resilience:	Shock and Vibration according to EN 60068-2 Part -6, -27
Protection:	IP54 (optional IP65)
Operating temp.:	-30 °C to 45 °C/-22 °F to 113 °F
Storage temp.:	-30 °C to 70 °C/-22 °F to 158 °F
Rel. humidity:	5 % to 95 % (in operation), non-condensing
Dimensions:	270 x 235 x 62 mm (W x H x D; without accessories)
Weight:	Approx. 2.8 kg (without accessories)
Power supply:	8.5 to 72 V DC (electrically isolated)
Power consumption:	Approx. 19 W (as standard), max. 70 W (freezer use)
Display:	10.4" color TFT display XGA with LED backlight, 1024 x 768 pixels, 350 cd/m², 2 status LEDs

Touchscreen:	Resistive, minimum surface hardness of 3H, with robust, chemically hardened beaming glass
Keyboard:	Virtual on-screen keyboard, 5 freely programmable function keys
Graphics:	Integrated graphics unit, DirectX12 support
Processor:	Intel Atom* QuadCore up to 4x 1.83 GHz (x5-E3940, Apollo Lake)
Memory:	Windows®** 10 IoT Enterprise + IGEL OS: 4 GB RAM, 64 GB flash - opt. 8 GB RAM, 128 GB flash Windows®** 11 IoT Enterprise: 8 GB RAM, 64 GB flash - opt. 128 GB flash
Operating system:	Windows®** 10 IoT Enterprise, Windows®** 11 IoT Enterprise, IGEL OS
BIOS:	UEFI BIOS, update-capable, bootable from LAN or USB as standard
Interfaces:	Ethernet 100-BaseT/10-BaseT autoswitch, RS232, 1x USB 3.0, 3x USB 2.0, integrated speaker in speech output quality, audio/microphone input via jack plugs

TECHNICAL DATA

Special features:	• Integrated energy buffer for short-term bridging of power breakdowns
	• 2 integrated antennae
	• Fan-less design
	• Device start-up and shutdown via freely definable function keys (ATX function) and via ignition
	• Sunlight readable

Options:	• WLAN IEEE 802.11a/b/g/n/ac/x/k/v/r (2.4 GHz/5 GHz) incl. BT-compatible close-range network WLAN Security[1]: WPA, IEEE802.11i (Personal and Enterprise), WPA2, WPA2-PSK 802.1x: PEAP-MSCHAPv2, PEAP-GTC, PEAP-TLS, EAP-TLS, EAP-TTLS, EAP-FAST, LEAP
	• 10.4" color TFT display SVGA with LED backlight, 800 x 600 pixels, 400 cd/m², resistive
	• 10.4" color TFT display XGA with LED backlight, 1024 x 768 pixels, 350 cd/m², capacitive
	• SOTI® MobiControl
	• Integrated battery for up to 1.5 hours of operation

ACD All-in-One:	• ACD All-in-One Support & Maintenance for operating system and firmware.
	• Includes firmware updates, upgrades to higher OS versions, security patches and unlimited phone support

04 / SOFTWARETOOLS

Our software tools for the management of Mobile Handheld Computers

Various Mobile Device Managers, supporting software applications for the operating systems Android™ Industrial+ and Windows®, and supporting ACD Android™ Industrial+ Apps.

04.1 / Softwaretools General
# SOTI® | MobiControl

Mobility Management Made Easy

SOTI® MobiControl is an enterprise mobility management solution that secures and manages Apple® iOS, Google Android™*, Microsoft Windows®** and Linux® devices, throughout their entire lifecycle, from deployment to retirement. It control all aspects of business mobility - tracking physical assets, managing applications and content, as well as keeping devices and data safe and secure.

SOTI® is the proven leader for managing rugged, special-purpose devices used in key industries, such as: healthcare, transportation, logistics, retail and field services. It removes the complexity from managing a multi-OS, multi-vendor and multi-purpose business mobility program.

Important features:
Maintenance (Remote View, data synchronisation, 2-way-chat), Kiosk mode, automatic device configuration (SOTI® Stage), configurable browser (SOTI® Surf), SOTI® hub

SOTI® MobiControl is multi-OS and multi-platform capable and manages all of your devices.
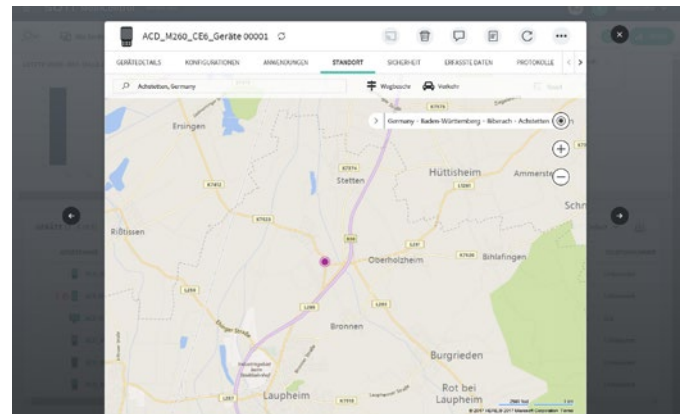

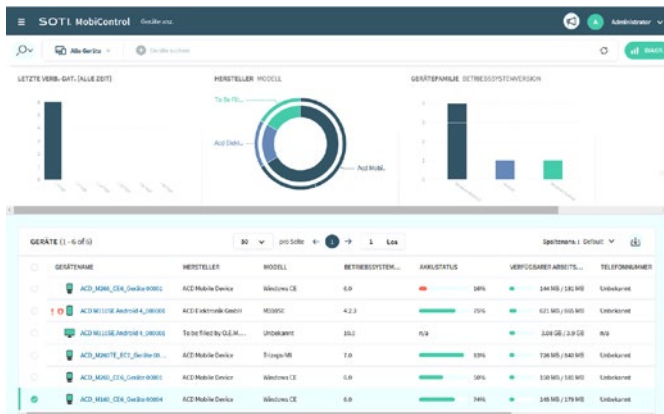

Device Agent System Requirements:	iOS 6.0 and above
	Android™* 2.3 and above
	Windows®** Mobile (5.0, 6.0, 6.1, 6.5, 6.5.3)
	Windows®** Pocket PC (2002, 2003)
	Windows®** CE .NET (4.2, 5.0, 6.0, 7.0)
	Windows®** XP Sp3 (32-bit)
	Windows®** 7 Desktop (32 and 64-bit)
	Windows®** 8 Desktop (32 and 64-bit)
	Windows®** 10 Desktop (32 and 64-bit)
	Linux Ubuntu 16.10 and above (with SOTI® MobiControl V.14)

SOTI® is a proven product innovator and EMM Industry leader. Over 17,000 customers across 170 countries rely on SOTI® for their EMM needs. SOTI® helps businesses around the world take mobility to endless possibilities.

ACD All-in-One:
- ACD All-in-One Support & Maintenance for ACD Apps and Programs

- Includes updates, upgrades and unlimited phone support

	M2Smart®SE	M270SE

ACD ScanConfig

ACD ScanConfig can be used to configure the integrated scanner of the Mobile Handheld Computer:
- Activate/deactivate barcode types
- Expand barcode with prefix/suffix
- Various other settings

The scan data is integrated into the keyboard. When a program wants to use the scanner API, this hooks up to the ACD ScanService.

         ✕ ✕

Remote access via SCRCPY (via ADB)

Remote access via SCRCPY provides remote control. The free SCRCPY server runs on the Mobile Handheld Computers. The Mobile Handheld Computer can be controlled remotely from the PC using the installed SCRCPY.

         ✕ ✕

Android™* Camera

The Android™* Camera Tool is a camera sample program. It can be used to take photographs.

         ✕

ACD SystemApp

ACD SystemApp is a program to display system information.

         ✕ ✕

ACD KioskBrowser

The ACD KioskBrowser is a simple, restrictive web browser that limits user access.
In this case, for example, access is limited to the address bar.

    optional optional

ACD KioskMode

With ACD KioskMode end users will only have access to specific applications.

    optional optional

ACD WebAppService

Service for communication between custom web application and Mobile Handheld Computer.

    optional optional

	M2Smart®SE	M270SE

ACD EasyToConfig

With ACD EasyToConfig, setting up and configuring mobile devices is easy.
Significant features of this product include fast initial setup (WLAN, system settings, etc.) as well as easy transfer of the initial setup to other devices (by file or barcode).

optional | **optional**

ACD EasyToStart

ACD EasyToStart makes it easy to set up and configure mobile devices. Significant features of this product are the fast initial setup of
language, WLAN, device configuration via
EasyToConfig barcodes (optional) and
installation of a customized app.

optional

ACD KeyConfig

With the ACD KeyConfg a simple and clear configuration of all keys as well as all keyboard modules is possible. Furthermore, the soft keyboard can be easily activated and deactivated thanks to quick access via icon.

optional | **optional**

ACD Network Manager

With the ACD Network Manager, information from WLAN and Ethernet is clearly displayed and related configurations can be made easily.

optional | **optional**

ACD M2UHF-RFID

App for the M2Smart®SE with M2UHF-RFID module. The app allows reading, writing, locating and much more of UHF-RFID tags. Furthermore, various settings can be made.

✕
with M2UHF-RFID module

ACD EasyToConnect 2.0

With the ACD EasyToConnect 2.0 a simple pairing between HasciSE and counterpart device is possible.

optional | **optional**

ACD HasciDataService

App for easy pairing with a BLE counterpart device (e.g. smartphones, Mobile Handheld Computers, Vehicle Mount Terminals), as well as for transferring data packets from the HasciSE via the GATT profile and further via intents or keyboard looping to the customer application.

optional | **optional**

ACD Remote File Commander

ACD Remote File Commander is used for easy remote control of ACD Android™* devices via FTP.

optional | **optional**

Saves travel time and makes IT equipment mobile

The mobile workstations are particularly suitable for flexible data acquisition and independent work in the entire warehouse environment The extremely robust design and the flexible modular system ensure a workstation that is tailored to requirements and optimized for the process. Thanks to the different performance classes, it is possible to supply the IT equipment over several shifts. The standardized hole pattern allows commercially available flex tools to be attached. The optimized side profile ensures easy attachment of accessories.

05 / Mobile Workstation
MAX 100

TECHNICAL DATA

Basic structure:
- Aluminium base frame with four castors (two with locking brakes)
- Easy maneuverability due to ergonomic handle and industrial castors
- Dimensions: 500 x 1,150 x 507 mm (W x H x D)
- Weight: Approx. 39 kg
- Load capacity: Total weight max. 70 kg; table top max. 10 kg
- Temperature range: 0 °C bis 40 °C

Equipment:
- Desk: 496 x 448 mm (W x D)
- External charger 12 V/7 A
- 1x AGM lead acid battery 12 V/36 Ah (maintenance-free)
- Battery indicator via LED display on battery module
- 1x Schuko socket (German)
- Battery capacity: Approx. 8 hours at 30 VA load

Equipment variants:
- MAX STD 100: OnBoard sinus power inverter 230 V AC/250 VA

TECHNICAL DATA

Options:	• Power strip with resicual-current circuit breaker (RCD)

Subject to technical modifications.

05 / Mobile Workstation
MAX BE Li-Ion

TECHNICAL DATA

Basic structure:
- Aluminium base frame with four castors (two with locking brakes)
- Adjustable work height, standard 1,130 mm (DIN 4549)
- Easy to push thanks to ergonomic handle and large castors
- Very stable due to corner castors and low centre of gravity
- Dimensions: 575 x 1,130 x 575 mm (W x H x D)
- Weight: Approx. 68 - 87 kg (depending on version)
- Temperature range: 0 °C to 40 °C/32 °F to 104 °F

Equipment:
- Desk: 500 x 445 mm (W x D), desk height adjustable
- Rear panel standard
- OnBoard charger
  17 A (MAX BE 300 Li-Ion),
  20 A (MAX BE 400 Li-Ion),
  35 A (MAX BE 500 Li-Ion),
  16 A (MAX BE 750 Li-Ion),
  25 A (MAX BE 1200 Li-Ion)

- Lithium-iron phosphate battery 12.8 V/100 Ah (maintenance-free):
  1x MAX BE 300 Li-Ion/MAX BE 400 Li-Ion/ MAX BE 500 Li-Ion or
  2x MAX BE 750 Li-Ion/MAX BE 1200 Li-Ion
- Integrated battery management system to balance and supervise battery cells
- 6-way power outlet Schuko (German) with residual current circuit breaker (RCD)
- Bypass circuit during the charging process (MAX BE 400 Li-Ion/MAX BE 500 Li-Ion/ MAX BE 750 Li-Ion/MAX BE 1200 Li-Ion)

Equipment variants:
- MAX BE 300 Li-Ion:
  OnBoard sinus power inverter 230 V AC/375 VA
- MAX BE 400 Li-Ion:
  OnBoard sinus power inverter 230 V AC/400 VA
- MAX BE 500 Li-Ion:
  OnBoard sinus power inverter 230 V AC/500 VA
- MAX BE 750 Li-Ion:
  OnBoard sinus power inverter 230 V AC/800 VA
- MAX BE 1200 Li-Ion:
  OnBoard sinus power inverter 230 V AC/1200 VA (suitable for most laser printer)

TECHNICAL DATA

| Options: | • ACD Vehicle Mount Terminal from the MFT1xSE series |
| | • Bluetooth Module Li-Ion |

Subject to technical modifications.

05 / Mobile Workstation
MAX BE STD

TECHNICAL DATA

Basic structure:
- Aluminium base frame with four castors (two with locking brakes)
- Adjustable work height, standard 1,130 mm (DIN 4549)
- Easy to push thanks to ergonomic handle and large castors
- Very stable due to corner castors and low centre of gravity
- Dimensions: 575 x 1,130 x 575 mm (W x H x D)
- Weight: Approx. 110 kg (depending on version)
- Temperature range: 0 °C to 40 °C/32 °F to 104 °F

Equipment:
- Desk: 500 x 445 mm (W x D), desk height adjustable
- Rear panel standard
- OnBoard charger 12 A
- 2x AGM batteries 12 V/60 Ah (maintenance-free)
- 24 V DC connector including plug

- Battery charge indicator displays battery capacity including acoustic and optical warning signal on reaching final discharge voltage with automatic stop (incl. deep discharge protection)
- 6-way power outlet Schuko (German) with residual current circuit breaker (RCD) (not with MAX BE STD OWR)

Equipment variants:
- MAX BE STD 300: OnBoard sinus power inverter 230 V AC/375 VA
- MAX BE STD 750: OnBoard sinus power inverter 230 V AC/800 VA
- MAX BE STD 1200: OnBoard sinus power inverter 230 V AC/1200 VA (suitable for most laser printer)
- MAX BE STD OWR: Without sinus power inverter

TECHNICAL DATA

Options:
- ACD Vehicle Mount Terminal from the MFT1xSE series

Subject to technical modifications.

05 / Mobile Workstation
MAX BE BWS-R

TECHNICAL DATA

Basic structure:
- Aluminium base frame with four castors (two with locking brakes)
- Adjustable work height, standard 1,130 mm (DIN 4549)
- Easy to push thanks to ergonomic handle and large castors
- Very stable due to corner castors and low centre of gravity
- Dimensions: 575 x 1,130 x 575 mm (W x H x D)
- Weight: Approx. 110 kg (depending on version)
- Temperature range: 0 °C to 40 °C/32 °F to 104 °F

Equipment:
- Desk: 500 x 445 mm (W x D), desk height adjustable
- Rear panel standard
- Roll battery changing station for MAX powerstation for easy battery change
- OnBoard charger 12 A
- 2x AGM batteries 12 V/60 Ah (maintenance-free)

- 24 V DC connector including plug
- Battery charge indicator displays battery capacity including acoustic and optical warning signal on reaching final discharge voltage with automatic stop (incl. deep discharge protection)
- 6-way power outlet Schuko (German) with residual current circuit breaker (RCD) (not with MAX BE BWS-R OWR)

Equipment variants:
- MAX BE BWS-R 300: OnBoard sinus power inverter 230 V AC/375 VA
- MAX BE BWS-R 750: OnBoard sinus power inverter 230 V AC/800 VA
- MAX BE BWS-R 1200: OnBoard sinus power inverter 230V AC/1200 VA (suitable for most laser printer)
- MAX BE BWS-R OWR: Without sinus power inverter

TECHNICAL DATA

MAX powerstation:	• Battery changing station for two battery trays
	• Twin delivery unit with roll system for changing the batteries
	• External battery charger (230 V) with 1.8 m cable lenghth (as option)
	• Necessary for MAX BE with roll battery change system

Options:	• ACD Vehicle Mount Terminal from the MFT1xSE series

Subject to technical modifications.

05 / Mobile Workstation
MAX BE GO with drive

TECHNICAL DATA

Basic structure:

- Aluminium base frame with four castors (two with locking brakes)
- Adjustable work height, standard 1,130 mm (DIN 4549)
- Easy movement due to electric drive, ergonomic handle and large castors
- Very stable due to corner castors and low centre of gravity
- Dimensions with standard table top: 575 x 1,130 x 575 mm (W x H x D)
- Dimensions with large table top: 700 x 1,130 x 750 mm (W x H x D)
- Middle shelf: 500 x 445 mm (W x D)
- Weight: Approx. 85 - 110 kg (depending on version)
- Temperature range: 0 °C to 40 °C/32 °F to 104 °F

Electric drive:

- Ergonomic control unit for drive commands integrated on the handle
- Drive commands: Forward, reverse
- Speed: Max. 4 km/h, Reduced speed for maneuvering and customized configuration possible
- Max. driving force: 200 N
- Distance when using 10 % battery capacity: 3 km for MAX BE STD variants and 6 km for MAX BE Li-Ion variants
- Slope: Max. 10 %
- Easy retrofitting of all relevant MAX BE models possible through ACD

TECHNICAL DATA

MAX GO versions:	Many MAX BE models of the ACD are available as MAX BE GO version:
	• MAX BE 750 Li-Ion • MAX BE 1200 Li-Ion • MAX BE STD 300 • MAX BE STD 750 • MAX BE STD 1200 • MAX BE STD OWR • MAX BE BWS-R 300 • MAX BE BWS-R 750 • MAX BE BWS-R 1200 • MAX BE BWS-R OWR
Options:	• ACD Vehicle Mount Terminal from the MFT1xSE series • Further options of the respective MAX BE models

Subject to technical modifications.

05 / Mobile Workstation
MAX BE TK

TECHNICAL DATA

Basic structure:
- Aluminium base frame with four castors (two with locking brakes)
- Adjustable work height, standard 1,130 mm (DIN 4549)
- Easy to push thanks to ergonomic handle and large castors
- Very stable due to corner castors and low centre of gravity
- Dimensions: 575 x 1,130 x 575 mm (W x H x D)
- Weight: Approx. 105 kg (depending on version)
- Temperature range: -28 °C to 40 °C/-18.4 °F to 104 °F

Equipment:
- Desk: 500 x 445 mm (W x D), desk height adjustable
- Rear panel multifunction
- OnBoard charger 10 A in freezer use layout
- 2x AGM batteries 12 V/60 Ah (maintenance-free) with battery isolation
- 24 V DC connector including plug

- Battery charge indicator displays battery capacity including acoustic and optical warning signal on reaching final discharge voltage with automatic stop (incl. deep discharge protection)
- Heat insulation

Equipment variants:
- MAX BE TK OWR: Without sinus power inverter
- MAX BE TK BWS-R OWR: With roll battery change system, without sinus power inverter

TECHNICAL DATA

MAX powerstation:	• Battery changing station for two battery trays
	• Twin delivery unit with roll system for changing the batteries
	• External battery charger (230 V) with 1.8 m cable lenghth (as option)
	• Necessary for MAX BE TK with roll battery change system

Options:	• ACD Vehicle Mount Terminal from the MFT1xSE series

Subject to technical modifications.
MAX BE STD   VS.   MAX PLUS

Total storage area:
6.675 cm²

Total storage area:
9.219 cm²

05 / Mobile Workstation
MAX Plus - 40 % more space

TECHNICAL DATA

Basic structure:
- Aluminium base frame with four castors (two with locking brakes)
- Adjustable work height; standard 1,130 mm (DIN 4549)
- Easy to push thanks to ergonomic handle and large castors
- Very stable due to corner castors and low centre of gravity
- Dimensions: 630 x 1,130 x 630 mm (W x H x D)
- Weight: Depending on variant
- Teperature range: 0 °C to 40 °C/ 32 °F to 104 °F

Equipment:
- Desk: 567 x 542 mm (W x D), desk heigt adjustable
- Rear panel multifunction
- OnBoard charger: Depending on variant

- Battery charge indicator displays battery capacity including acoustic and optical warning signal on reaching final discharge voltage with automatic stop (incl. deep discharge protection)
- 6-way power outlet Schuko (German) with residual current circuit breaker (RCD)

Equipment variants:
- According to customer's requirements, for appropriate quantities

Storage area:
- Almost 40% more storage space than MAX BE STD for technical equipment
